

EFP NANCY LORRAINE

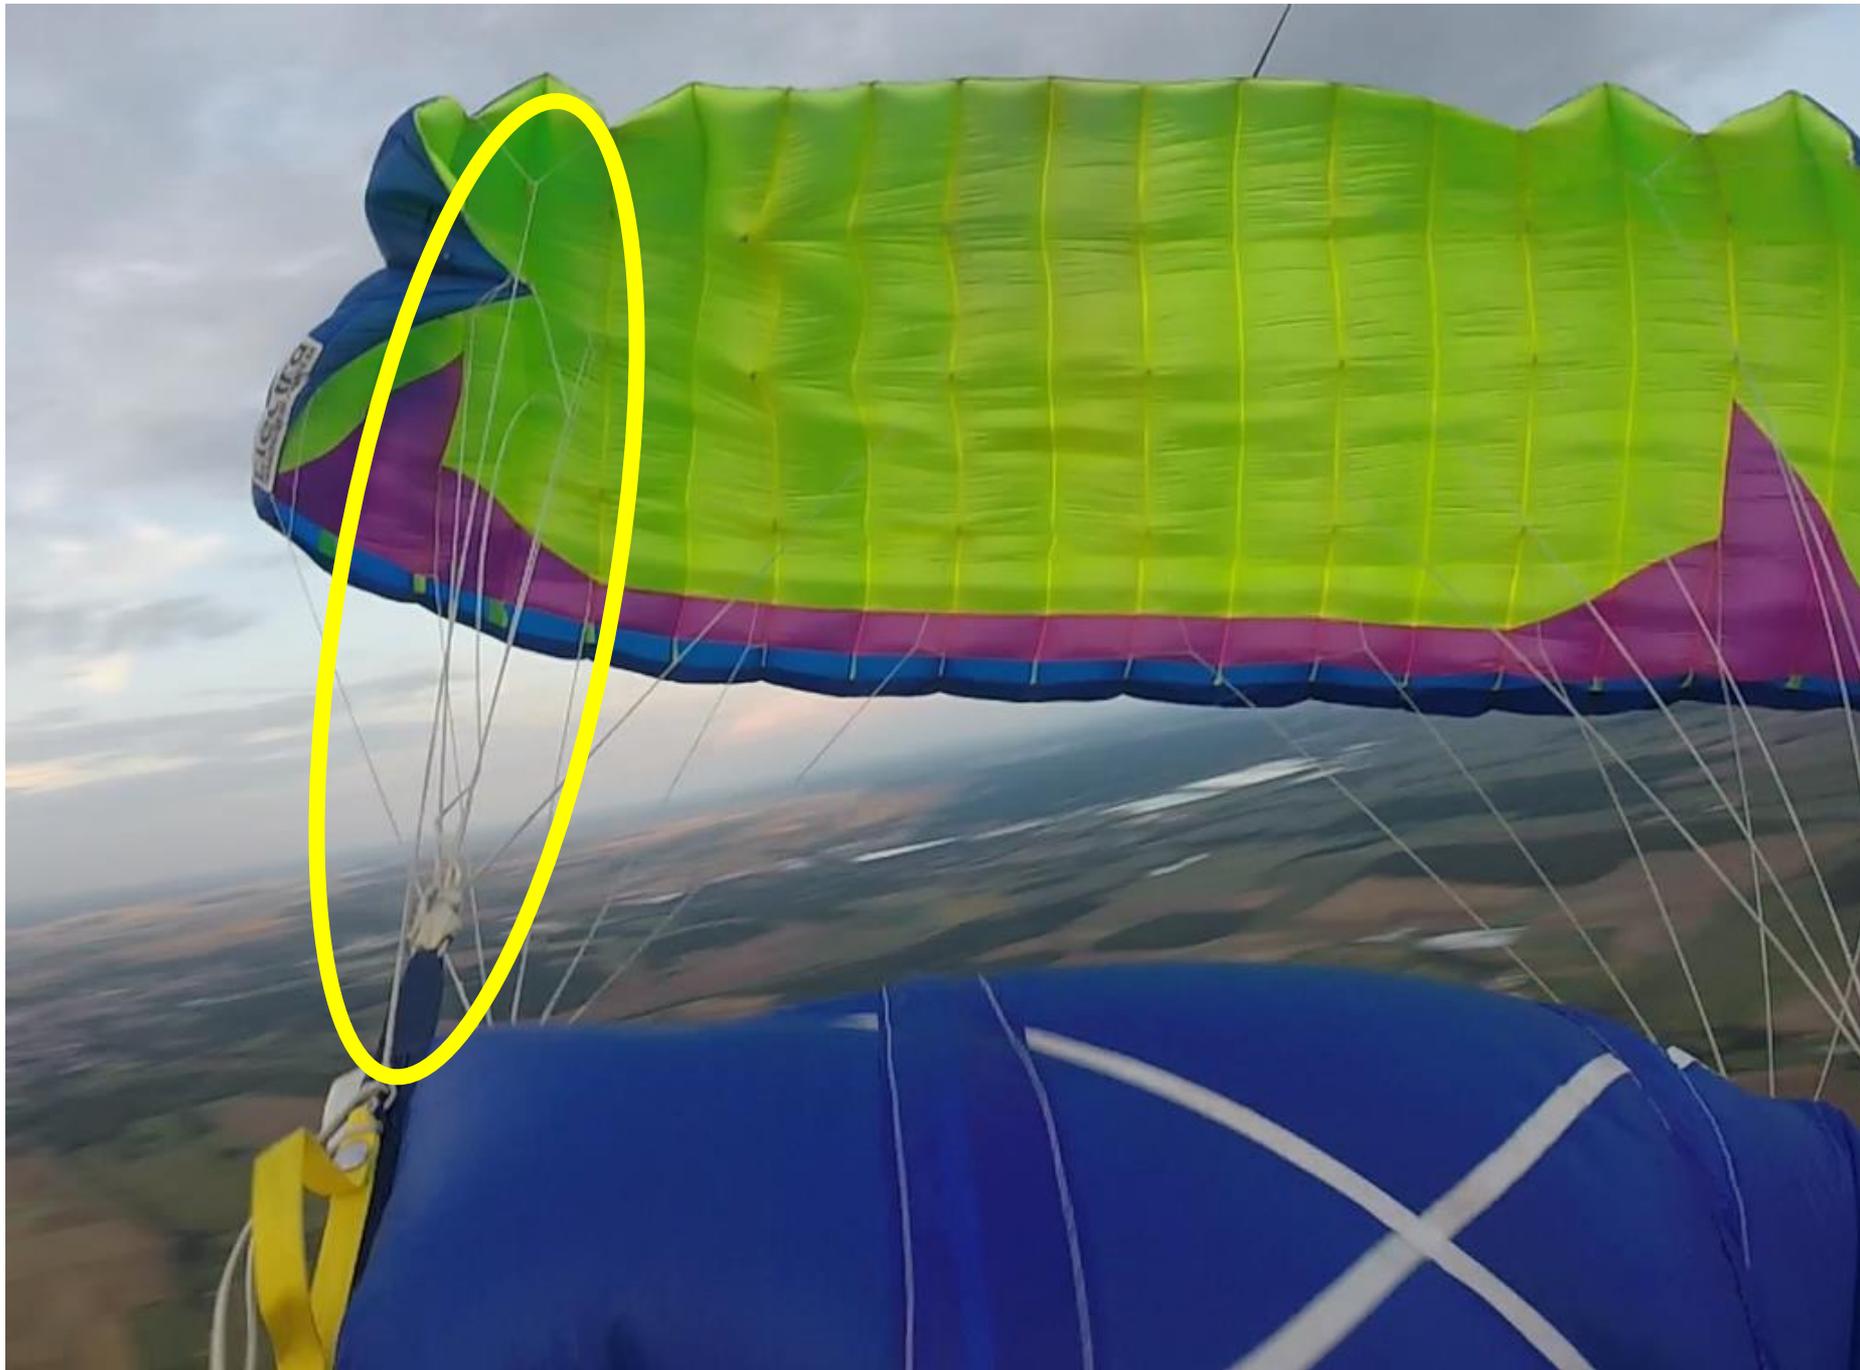

Petit rappel technique :

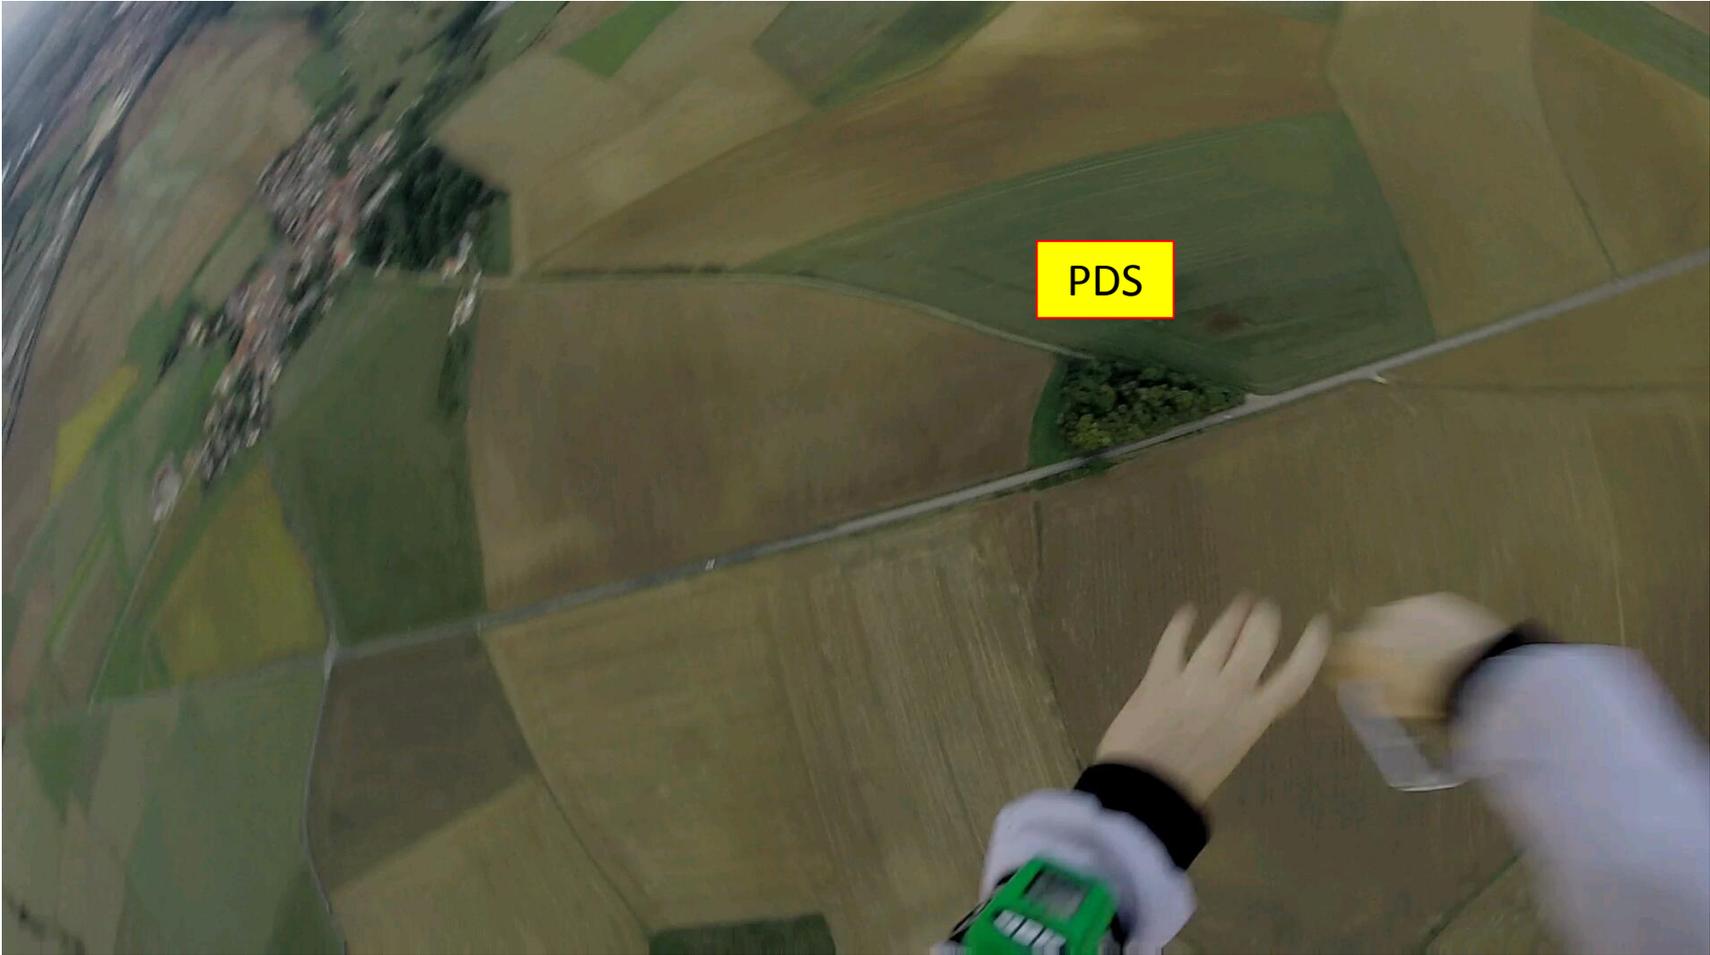

Est-ce vraiment utile de
dévriller ses commandes

????????????????????

Réponses en images !!!

PDS

The image shows a first-person perspective of a person looking down at a rural landscape. The landscape consists of various agricultural fields in shades of green and brown, separated by roads and ditches. In the foreground, the person's hands are visible, wearing a light blue long-sleeved shirt with black cuffs. The left hand is holding a green object, possibly a tool or a small container. A yellow rectangular label with the text 'PDS' is overlaid on the image, pointing to a specific area in the landscape.

Moralité,

**un petit dévissage vaut
mieux qu'une PDS et un
atterrissage hors zone!!**

A bon entendeur...
